

Capital Pathology Laboratory

High Quality Precise Medical Testing

cpl00014852

Patient Name	SANTOSH KHATI	Registered On	Sep 16, 2021, 10:13 a.m.
Sex / Age	Male / 24 years	Receiving On	Sep 16, 2021, 10:53 a.m.
Ref Dr.	SELF	Printed On	Sep 16, 2021, 08:30 p.m.
Sample From	HEALTH SUVIDHA	SRF No.	0916400154093
Passport No.	-		

Test Description	Value(s)
------------------	----------

PATHOLOGY

SARS-CoV-2 (COVID 19) Detection (Qualitative) by Real Time rt PCR*

Covid-19 RT-PCR - SARS-CoV-2 **NEGATIVE**

Method : RT PCR

Viral Load Range **NA**

CT Value **NA**

Limitations:

Negative	RNA specific to SARS-CoV-2 Not Detected
Positive	RNA specific to SARS-CoV-2 Detected
Inconclusive	This could be due to low viral load in the sample. A repeat sample is recommended for confirmation.

Interpretation:

- **ICMR Registration number for Covid -19 is CAPPATHLNUP.**
- Negative result does not rule out the possibility of Covid-19 infection. Presence of inhibitors, mutations & insufficient RNA specific to SARS-CoV-2 can influence the test result.
- Kindly correlate the results with clinical findings. A negative result in a single upper respiratory tract sample does not rule out SARS-CoV-2 infection. Hence in such cases a repeat sample should be sent. Lower respiratory tract samples like Sputum, BAL, ET aspirate are appropriate samples especially in severe and progressive lung disease.
- Covid-19 Test conducted as per kits approved by ICMR.
- Kindly consult referring Physician / Authorized hospitals for appropriate followup

ABOUT SARS COV 2

Laboratory results should be used with other clinical information to determine a final diagnosis. For any unexpected test results please contact the laboratory. Laboratory does not verify the identity or the details of the customer and cannot be held responsible for any misrepresentation or misuse. The results cannot be used for medico-legal purpose. There may be incidences beyond our control which could result in delay of testing. All tests have been carried out with reasonable care, clinical safety & technical integrity, however there could be some factors beyond control which can affect the accuracy of results.

If tests results are alarming/unexpected, client is advised to contact the Lab immediately for possible remedial actions.
